To all the Students
of
The School of Computer Science at Reykjavik University

The Fraunhofer Center for Experimental Software Engineering (http://www.fc-md.umd.edu/) and the School of Computer Science (RU) hereby issue a

CALL FOR INTERNSHIPS

within the agreement between Fraunhofer Center for Experimental Software Engineering (University of Maryland) and The School of Computer Science (Reykjavik University), aimed at offering the selected students the chance to spend a period abroad as an intern at Fraunhofer.

Fraunhofer and RU offer 1-6 students, a year enrolled in the BSc, MSc, or PhD program in the department of Computer Science at RU, to apply for a paid 6 month internship at Fraunhofer. The interns will receive a monthly payment of 1250$ during their stay (amount may be subject to changes).

BSc students may apply to 1-24 ECTS during their internship; at most students can get 24 ECTS for 6 months.

BSc students must submit project or thesis work according to the normal rules and deadlines at RU.

BSc students may apply to follow courses at The University of Maryland provided that they can show that „1) The course is a core course in their degree program, b) The course is not taught in the RU distance education program and c) Missing those courses would impede their progress towards graduation.” PhD students may apply to use the internships for research work.

Applicants must:
1. fill in the application form enclosed to this call,
2. submit a CV in English

The filled application form and the accompanying CV must be emailed to scs_office@ru.is by 26th of February 2014.

Fraunhofer and RU will choose the recipients of the scholarships according to a common selection process. The selection results will be sent to the applicants by email.
